1. Season Overview

General comments of season summaries were presented which included: numerous rainouts; many more blowout scores this season; need for all referees to submit game reports to RDYSL; more non-spectator infractions reported. It was a positive summer for appeals; only two appeals this season.

2. Game day processes

Multiple cancellations in one afternoon are difficult for DC's to manage. Suggestion was made to discuss with the club presidents to move in the direction of having the clubs responsible for taking fields offline.

Additionally, it was suggested that there be an increase in doubleheader spacing: start at 6:15 and 7:30.
